

Glenmir

"Glenmir" is a recently established country garden on a small property with sweeping views over the Tarana Valley. It comprises a mixture of natives, conifers and perennials. The arbours with climbing roses and vines provide shade and colour and a quiet place to sit and enjoy the views and the plentiful bird life.

The Garden of Chris and Rob

Having bought the property only a few years ago, these two enthusiastic gardeners have transformed an old nursery into a magical mosaic of lush plantings, bushland walks, and fields. Add horses and stables to the mix and you have a country garden like no other. While the show horses are a serious business venture, the garden is pure indulgence and leads the viewer on a whimsical journey with surprises at every turn. Look for the wonderful rustic collections, the pond, and interesting objects in unusual places.

Tranquility

"Tranquility" garden is approximately 2 acres of gardens with winding paths throughout, leading to different plantings, ponds, mosaics and lead lighting. Started some 25 years ago, it was never planned to be as large but the fences just kept being moved out into the paddocks as they wanted to develop new gardens and structures, the latest being a large greenhouse / fernery which the plants are absolutely loving.

Miss Traill's Garden Market

Miss Traill's House is a National Trust colonial Georgian house museum built in 1845. With extensive gardens planted with trees and shrubs commonly found in colonial gardens. A market will be held in this enchanting garden and the adjoining horse paddock. The Bathurst Gardeners' Club plant stall will be featured along with stalls of rare and unusual plants, garden sculptures and crafts. Musical entertainment will be provided over lunch time on both days with morning / afternoon teas and BBQ lunches available.
